

Kier Joshua E. Du

Brgy. 2 Tibag, Calamba City, Laguna 4027, Philippines
639994774000 | kierjoshuadu1226@gmail.com

Objective

Detail-oriented and self-motivated aspiring full-stack developer with hands-on experience in React Native and MERN stack projects. Eager to contribute to dynamic development teams in an entry-level programming role where I can grow, build scalable solutions, and deepen my technical expertise.

Experience

- City College Of Calamba** March 2024 - January 2025
Capstone Research Project

Developed an inventory and billing management system for Punzalan Optical Clinic as part of a capstone research project.

Implemented the front-end interface, focusing on user experience and responsive design to streamline clinic operations.
- digichALLENGer (Internship)** January 2025 - April 2025
IT staff
-Assisted with multiple CCTV installations, including site assessments, camera setup, DVR configuration, wiring, and connectivity testing.

-Participated in computer and laptop troubleshooting, diagnosing hardware/software issues, and performing basic maintenance and repairs for clients.

-Conducted inventory checks and learned the basics of networking and CCTV systems under the guidance of senior staff.

-Deployed and configured a free Wi-Fi voucher system for clients, and studied implementation of Synology NAS systems.

-Co-developed a mobile application as a primary long-term task throughout the internship, focusing on UI, feature development, and overall functionality, collaborating with a partner.
